# Our Company

“ Quality is never an accident, it is always the result of high intention, sincere efforts, intelligent direction and skillful execution; it represent the wise choice of many alternatives. ”

**Golden Words**  
— **Samarjit Kumar Ji**  
**Founder**  
**Enzytex Group**

## ENZYTEX

### From its Beginning

In 2010, Shri Samarjit Kumar Ji, a visionary and a hard working person with dreams in his eyes, determination in his mind and experience of about 10 yrs in textile processing grabbed an opportunity to start his own chemical manufacturing facility. Shri Samarjit Kumar a boy from a farmer family in Haryana dared to step up into the world of business with no support from parental family or from society. Not belonging to a business class family was a major resistance to all his efforts to establish himself. Alone in the race, with the the odds faced he with his determination, hard work and committed attitude.

**Enzytex Bio Chem Pvt. Ltd.** formerly known as **Shiva Dye Chem** in the leadership of Shri Samarjit Kumar has established itself as troubleshooter manufacturing house for treatment of typical problems of textile and garment processing industry. Enzytex is recognized as one of the leading companies in supplies of auxiliaries for textile and garment processing may it be chemical or enzymatic formulations.

## OUR POLICY

We shall endeavor to achieve total customer expectations through superior products, service and innovations. To ensure their trust in our quality is never betrayed, we are focusing on consistent quality products that successfully match with the international quality standards and thus provide top most quality products to our customers who have shown immense confidence in our range of products. We are strictly adhering to various quality control measures to ensure that final product is of top quality which can be used for achieving effective results. Our quality control managers diligently monitor different stages of production, not allowing any flaw to enter into the product at any stage of production.

**QUALITY**

We commit best in class Quality and Consistency Supported with strong R&D team and advanced equipments it is very rare that we come across a quality complaint.

- INNOVATION
- EXCELLENCE
- CUSTOMER CENTRICITY
- AGILITY

**PURPOSE**

We shall achieve or goal by being the preferred solution provider of our customers by practicing respectful and ethical business practices, by being the employer of choice with in the chemical industry, and by providing superior returns to our investors and business associates.

**MISSION**

To be integrated solution provider ...  
...to our customers by introducing future technologies and information to add value at every stage of customer need.

**VISION**

To be among the top chemical manufacturing house in INDIA through the power of innovation in chemistry we deliver better solutions that help our customers be more productive.

# PRE TREATMENT

## WETTING AGENTS

### TEXWET AW

Concentrated low foaming nonionic wetting cum scouring agent.

### TEXWET ECO-I

Concentrated low foaming nonionic wetting cum detergent.

### TEXWET TRA

Low foaming nonionic wetting agent.

## ANTI CREASING

### TEXTLUBE-CONC PWD

It is specially designed high concentrated anionic Anti Creasing Agent.

### TEXTLUBE-ACA

Premium Lubricant cum friction reducer for dye bath, especially for higher GSM fabrics.

### TEXTLUBE-OC

It is specially designed ready to use anionic Anti Creasing Agent to be used in boiling and dyeing process.

### TEXTLUBE-CRE

It is specially designed ready to use anionic Anti Creasing Agent to be used for Non Denims.

## AMYLASE

### TEXAMY-LO

It is ready to use enzymatic desizing agent to be used at room temperature.

### TEXAMY-HT

It is a ready to use enzymatic hot desizing agent to be used to elevated temperature of 50-60 Degree C.

### TEXAMY-LB

It is a specially designed ready to use formulation to impart multiple effects i.e. desizing, wetting and Anti Creasing Properties to the garment.

## LEVELLING AGENTS

### TEXTLVL-SF

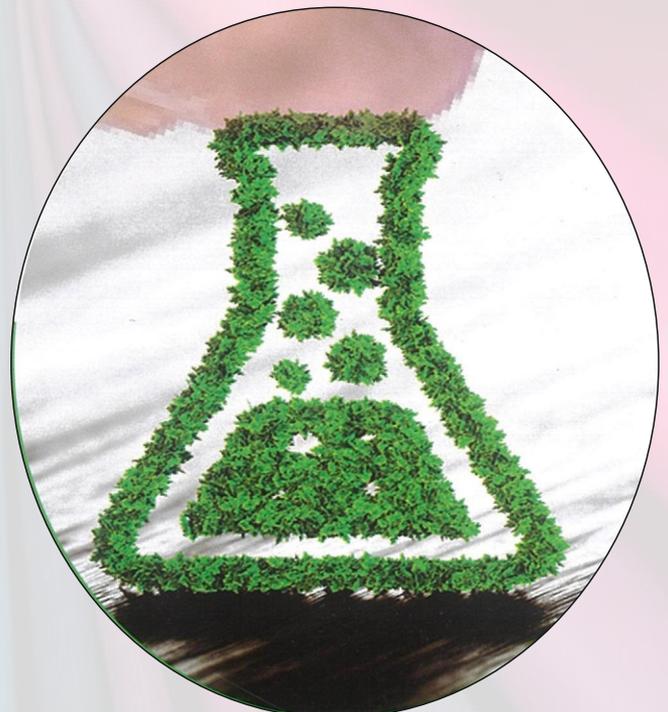

Premium dispersing, levelling and sequestering agent for reactive dyeing of cotton.

### TEXTLVL-SF ECO

Premium dispersing, leveling and sequestering agent for pre-treatment.

### TEXTLVL-DTI

Premium dispersing cum levelling agent for polyester dyeing.

# DYEING ASSISTING

## SOAPING AGENTS

### TEXSOAP-CONC

Premium non-foaming washing off agent for reactive dye fabric and yarn.

### TEXSOAP-AS ULTRA

Premium non-foaming washing off agent for reactive dyed fabric.

### TEXSOAP-LC

Premium soaping agent for non-turbulent machines.

## ANTI BACK STAINING

### TEXOFF-ABS CW

It is high performance Anti Back Staining product designed to allow minimum tinting of indigo blue.

### TEXOFF-ABS 550

It is powder formulation to give an effective anti back staining effect for denims.

## DYE FIXERS

### TEXFIX-90

It is specially designed high concentrated dye fixing agent for reactive and direct dyes.

### TEXFIX-60

It is specially designed economical dye fixing agent for reactive and direct dyes.

## STAIN REMOVERS

### TEXWASH-ST

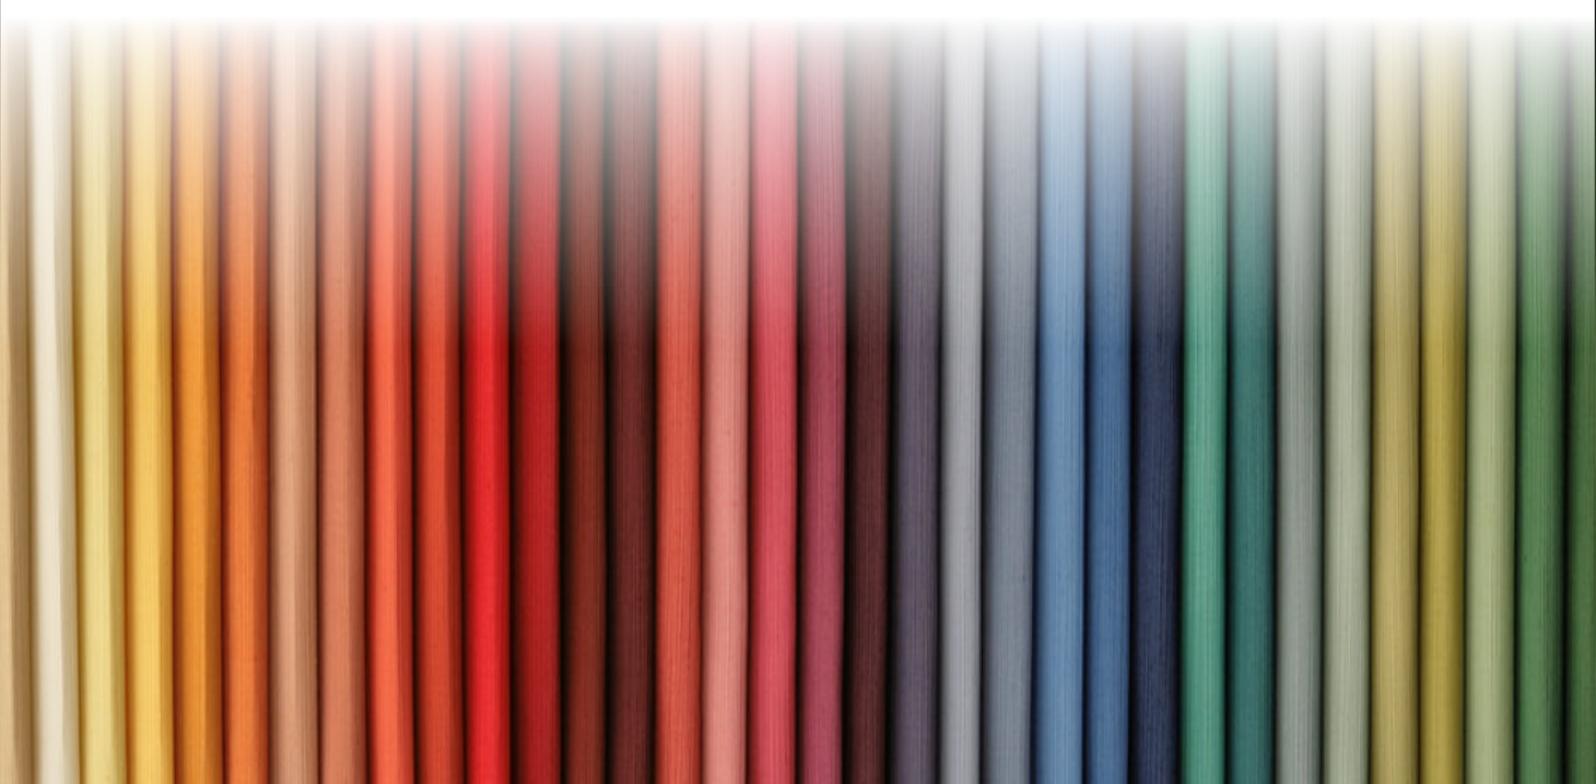

It is unique formulation to remove all kinds of handling related stains from garments and fabric.

### TEXWASH-ET

It is specially designed ready to use a stain remover due to fight against tinting of reactive and indigo dye from garments.

### TEXWASH-XNI

It is unique formulation to remove all kinds of Oil related stains from fabric under defined conditions.

# CELLULASE

## BIOPOLISHING ENZYMES

### TEXZYM-CB CONC

Premium concentrated biopolish enzyme that works at neutral pH and low bath temperature.

### TEXZYM-CB

Premium concentrated biopolish enzyme that works at neutral pH and low bath temperature.

### TEXZYM-NB

High temperature stable enzyme for size removal.

### TEXZYM-AB

It is economical biopolish for the treatment of the fabrics.

## FADING ENZYMES

### TEXFADE-FD

It is low temperature neutral pH biopolishing enzyme formulation for Dyed and Basic Garments.

### TEXFADE-NB 111

It is powder formulation of neutral pH low temperature fading enzyme with good puckering effect.

### TEXFADE-SS 150

It is low temperature Neutral pH fading enzyme formulation with very good De-Pilling effect.

# DETERGENTS

## **TEXDET-TD**

It is unique blend of alkaline surfactants to impart good cleaning and soaping effects.

## **TEXDET-ET PWD**

It is powder that impart good cleaning and soaping effects.

# OPTICAL BRIGHTENER

## **TEXWHITE-HI**

It is specially designed formulation of optical brighteners to impart Redder Tone Garment/Fabric.

## **TEXWHITE-2B**

It is specially designed formulation of optical brighteners to impart neutral Tone to Garments/Fabric.

## **TEXWHITE-2B CONC**

It is highly concentrated formulation of optical brighteners to impart neutral Tone to Garments/Fabric.

## **TEXWHITE-SI**

It is specially designed formulation of optical brighteners to Neutral Bright Tone to Garments/Fabric.

## **TEXWHITE-SI CONC**

It is highly concentrated formulation of optical brighteners to Neutral Bright Tone to Garments/Fabric.

## **TEXWHITE-4BB**

It is highly concentrated of optical brighteners to give Bright Tone to Garment/Fabric.

# FINISHING AGENTS

## SOFTNERS

### TEXSOFT TSS

It is specially designed cold water soluble cationic softener concentrate.

### TEXSOFT-300

It is specially designed cold water soluble cationic softener concentrate.

### TEXSOFT PQ

It is High temperature water soluble cationic softener concentrate flakes. It imparts bouncy, smooth hand feel.

### TEXSOFT CC ULTRA

It is high temperature water soluble cationic softener concentrate flakes. It imparts bouncy, smooth hand feel.

### TEXSOFT OZ

Nonionic softener for white fabrics.

## SILICONES

### TEXSIL-90

Premium hydrophilic silicone softener.

### TEXSIL DM 40

Premium silicone softener for exceptional surface smoothness.

### TEXSIL EA 4

Premium silicone softener for silky hand feel.

### TEXSIL DHL

Premium silicone softener for cotton, wool and synthetics.

### TURBOSIL SHP CONC

Premium silicone softener for very soft and silky hand feel.
